# Innovation In Interiors Awards 2002

## CITY SPACE AWARD 2002

### THE WINNER:

Rescom Developments West Point Development, Castlefields, Manchester. Tel: 0161 834 9953

### REMIT:

As the twenty first century sees conventional barriers broken down, the way in which we live and where we live is changing. City living is a trend that is set to continue. The award recognises all city centre homes in whatever form they may take.

### JUDGES COMMENTS:

*A simple and carefully constructed plan arrangement allows this scheme to maximise the density on the site whilst providing apartments with generous living space flooded with light. The penthouse living space with its full length glazing onto large terraces is a pleasure. The internal specification is high with carefully designed kitchens, which make the most of space limitations. The glass lift cleverly brings natural light into the inner common areas and the overall impression is one of a quality scheme carefully planned which can only benefit the range of city living space currently available within central Manchester.*

*“The penthouse living space with its full length glazing onto large terraces is a pleasure. The internal specification is high with carefully designed kitchens, which make the most of space limitations.”*
